2.5 CEUs (BOC) / 2.75
CEUs (ABCOP)

**Average completion
time:** 2.5 hours

Participation fee:
\$35

**Technical
prerequisites:**
Computer,
laptop or tablet with
speaker and a stable
internet connection
with an up-to-date
browser. *(The course
does not work as well
on a mobile phone.)*

Who is this online course for?

This 100% online, self-paced course is designed for any Certified Mastectomy Fitter, Fitter in Training, or others working within the medical supply trade. The course will increase your knowledge of compression in the truncal and breast/chest area, and how it differs from extremity compression. We'll explore supplying and billing practices under the Lymphedema Treatment Act.

In this video webinar training, we will also detail the amoena Lymph Care compression garments, which are specially designed to assist patients day to day with prevention and management of lymphedema. These products are unique in the marketplace and will help you serve patients more thoughtfully and thoroughly.

You will gain practical knowledge in a varied, compact and stimulating training with input from amoena professionals and helpful resources to increase your referrals.

COURSE TOPICS

Medicare Coverage Guidelines for Lymphedema
Compression
Gradient Compression and Breast Care
Amoena Compression Portfolio
Billing, Compliance and Best Practices
